

SkyBuilt Power® –Renewable Power Anywhere

SKYBUILT POWER®—THE LEADING RENEWABLE ENERGY SYSTEMS INTEGRATION COMPANY.

Use renewable energy, such as solar, wind, fuel cells, and micro-hydro power, with or without fuel-based systems, on or off the grid. Our power, engineering, business, and other experts help you to cut costs, increase reliability, lower maintenance and logistical tails; and gain environmental benefits.

Military and Intelligence Uses:

- Lower cost, more reliable power
- No logistical tail, no heat signature
- Tough, reliable, instant power with or without fuel
- Operations/command center/telecom
- Medical clinic, triage facility
- Water pumping/purification
- Battery recharging
- Storage, HVAC or lighted space

Mobile Power Stations:

- Containerized, rapidly deployed power, expandable from 0.5 kW to 150 kW or more; use the inside of the container for any purpose in the field
- Power without fuel and virtually no maintenance

Commercial Applications:

- Cut energy costs
- Cell tower conversions to renewables
- Geo exchange systems to reduce HVAC costs
- Tax credits as green power

Homeland Security:

- Disaster relief power, baseload or backup
- Emergency Ops centers for first responders
- Telecommunications
- Border control power
- Sensors, alarms and lights

International:

- Water pumping, desalinization and irrigation for Sustainable Economic Development
- Mobile clinics and health facilities
- Self-contained, self-powered classrooms, offices
