

SkyBuilt Power® RENEWABLE ENERGY SOLUTIONS

- Rapidly deployable - Solar, wind, battery, and diesel systems
- Reliable – Full product line of fixed and mobile systems to replace/augment generators or the grid
- Economical – Cut logistics, maintenance, and fuel costs
- Expandable – Power from 500W to 150kW or more, on or off the grid
- Fast – Plug-and-play commercial components set up quickly with remote control options
- No sun? No problem. Use our solar, wind and back-up power system in any climate worldwide

MOBILE POWER STATION

Containerized Power for Larger Power Needs

- Complete power station in a standard freight container
- Sets up in a day or so, runs for years with minimal maintenance and fuel
- Ideal for tactical ops center, mobile clinics, cell tower power, water pumping, disaster relief, etc.

RENEWABLE ENERGY TRAILER

Quick Power for the Field

- Take power anywhere you drive
- Complete system sets up in minutes
- Wind turbines, solar blankets, back-up batteries and a generator
- Ideal for remote power, disaster relief, border security, remote communications, etc.

**MILITARY INTELLIGENCE ■ HOMELAND SECURITY ■ DISASTER RELIEF ■ CELL TOWER POWER
BACKUP POWER ■ MOBILE CLINICS ■ AGRICULTURE ■ TACTICAL OPS CENTERS
WATER PUMPING AND MORE**

CELL TOWER POWER

More Reliable Green Energy for Remote Towers

THE Q-CASE™

Solar and Battery Power in a Case

- Power communications or surveillance equipment on towers in any climate
- Augment or replace diesel generators for more reliable power
- Remotely controlled - saves logistics costs
- Heating and cooling systems protect electronic equipment

- Man-portable power for extreme mobility
- Grab and go, solar, wind, and battery power in a suitcase
- Rugged for extreme conditions worldwide
- AC or DC, various voltages
- Sets up in minutes, expandable
- Totally automatic

MILITARY/INTELLIGENCE USES:

- Tough, reliable power
- Operations Center
- Battery charging
- Remote internet
- Communication facilities
- Water purification

HOMELAND SECURITY USES:

- First responders' power and communications
- Emergency lighting, shelter
- Police/Fire Command Center
- Telecommunications

COMMERCIAL POWER USES:

- Water irrigation, pumping
- Cell tower power
- Remote power in developing countries - banking, mobile clinics
- Back-up power
